

## Best Practices in Election Administration

## U.S. Election Assistance Commission (EAC) 2019 Clearinghouse Awards

The submission period for the fourth annual Clearinghouse Awards (Clearies) for Best Practices in Election Administration is now open. The EAC invites submissions through November 25, 2019.

The Clearies play an important role in furthering the EAC's responsibilities under the Help America Vote Act of 2002. Under that Act, the EAC serves as a clearinghouse for election administration information.

We want to hear from you about initiatives that have produced positive results in your jurisdiction. It's easy to enter and a great way to celebrate your team's successes.

### The 2019 Clearie categories:

- Outstanding innovations in elections;
- Best practices related to the recruiting, training, and retaining of election workers;
- Improving accessibility for voters with disabilities; and
- **Special 2019 category:** Most creative or original 'I Voted' stickers.

All jurisdictions are encouraged to enter.

Your submissions can be as simple as a half-page narrative or as complex as a lengthy project plan.

The EAC is committed to highlighting the hard work, determination, and "can do" spirit that election officials bring to Election Day tasks!
